

## **Kenji Matsuki**

- [Advanced Math \(7-8 and 9+ graders\)](#)
- [SAT Preparation](#)

(Click the above links for more information on specific classes)

Originally from Japan, Mr.Kenji Matsuki received his PhD from Columbia University in 1988 and has been a full professor of Math at Purdue University for many years. Additionally, Mr.Matsuki has agreed to join our school to teach a new Advanced Math program.

In his Advanced mathematics for 7-8 th graders (Algebra and Geometry), Mr.Matsuki's goal is to prepare the students better and stronger for the advanced high school mathematics by training them to think rather than just forcing them to memorize the formulas.

The goal of this series for Advanced 9 graders is to prepare the students better and stronger for the Calculus courses they are going to take at the universities (or even at their high schools). I am now teaching Freshmen Calculus at Purdue University, so I know first-hand what they should expect.
